Young Adult Professionals

In connection with the
Warsaw/Kosciusko County
Chamber of Commerce

...to provide a professional environment to support and guide the Young Adult Professionals in Kosciusko County, through networking, friendship, learning, opportunities, and encouragement.

Explanation of YAP...

Who We Are... a group of professionals in their 20's or 30's looking to network and establish relationships with the intent of making Kosciusko County a better place to work and live.

Who Can Join... any 20 or 30 something person who works in Kosciusko County.

What We Do... institute events and gatherings that will encourage others to make a difference in our area through learning opportunities, service projects, and social events.

What Our Goals Are... to collaborate with our peers to establish various opportunities to make a difference in our community, both in business and relationships.

Young Adult Professionals YAP

How we got here—

A group of motivated chamber members dedicated to making Kosciusko County a better place to live and work, formed a planning committee and are now extending membership to anyone.

What we have to offer—

An opportunity to link with other business people in Kosciusko County to establish connections that will benefit not only involved parties but also their place of employment and the entire county.

"Being new to the area, it was challenging to meet people. The Chamber allowed me to become involved in the community and to build friendships. I believe that YAP will continue to encourage these relationships and build a strong foundation for young professionals in the community. This organization will not only help to retain young adults in the Kosciusko area, but will help build a solid business network for the future of our community."
